

General Practice Section

Robert G. Wetmore, Chair

Purpose

The purpose of the General Practice Section is to enhance the role and skills of lawyers engaged in general practice law through networking, lectures, research, and dissemination of materials, all dedicated to serving the needs of the public and of the legal profession.

Annual Report

The General Practice Section has focused on bringing in quality continuing legal education programming that emphasizes small and solo firm management and marketing as well as service to clients, which leads to increased profit and productivity.

In the future, I hope that the section continues to help to produce programs that serve general practitioners. In addition to local talent, a host of available program leaders can be contacted through the ABA and the regional bars. Additionally, a Connecticut general practice newsletter, even if printed irregularly, could be a forum for other topics locally and could even be the basis of a “blog.” Today, every participant does not have to be in the room to take part in the section.
