

Social Security Advocacy Management Services

August 30, 2019

Dear [Redacted]

A previous correspondence was sent to you regarding how the State of Connecticut has partnered with Public Consulting Group, Inc. (PCG), to help you obtain Social Security Disability (SSD) benefits and Medicare at no cost to you!

It is a new requirement that retirees receiving disability retirement benefits from Employees Retirement System (SERS) apply for SSD, as explained in the State's letter attached. Our job is to make the process as easy as possible for their retirees. If eligible, you may receive additional benefits from Social Security and eligibility to Medicare. **No disability retiree who applies for and receives SSD shall receive less in total benefits because of this new requirement.** Once enrolled, Medicare will become your primary insurer, meaning it will cover cost covered by Medicare and then your State plan will process the remaining balance for payment with any cost-sharing requirements, if the claim is a covered service.

PCG is a nationally recognized leader in Social Security disability representation. PCG's friendly staff will guide you, step-by-step, through the application process. It is not a requirement to use PCG's services, but retirees who do will receive excellent representation at no cost.

**Take the first step now.** You can complete the questionnaire below and return it using the enclosed postage-paid envelope or contact us using any of the following;
