

PB 13-6 AND 13-9 WITH (ALREADY ACCEPTED) 2017 REVISIONS HIGHLIGHTED IN BLUE; CTLA PROPOSED CHANGES HIGHLIGHTED IN YELLOW

Sec. 13–6. Interrogatories; In General

(a) In any civil action, in any probate appeal, or in any administrative appeal where the judicial authority finds it reasonably probable that evidence outside the record will be required, any party may serve in accordance with Sections 10–12 through 10–17 written interrogatories, which may be in electronic format, upon any other party to be answered by the party served. Written interrogatories may be served upon any party without leave of the judicial authority at any time after the return day. Except as provided in subsection (d) or where the interrogatories are served electronically as provided in Section 10–13 and in a format that allows the recipient to electronically insert the answers in the transmitted document, the party serving interrogatories shall leave sufficient space following each interrogatory in which the party to whom the interrogatories are directed can insert the answer. In the event that an answer requires more space than that provided on interrogatories that were not served electronically and in a format that allows the recipient to electronically insert the answers in the transmitted document, the answer shall be continued on a separate sheet of paper which shall be attached to the completed answers.

(b) Interrogatories may relate to any matters which can be inquired into under Sections 13–2 through 13–5 and the answers may be used at trial to the extent permitted by the rules of evidence. In all personal injury actions alleging liability based on the operation or ownership of a motor vehicle or alleging liability based on the ownership, maintenance or control of real property, or in actions claiming a loss of consortium or uninsured/underinsured motorist coverage benefits, the interrogatories shall be limited to those set forth in Forms 201, 202, 203, 208, 210, 212, 213 and/or 214 of the rules of practice, unless upon motion, the judicial authority determines that such interrogatories are inappropriate or inadequate in the particular action. In all actions for medical negligence [actions in which an opinion letter must be filed pursuant to General Statutes section 52-190(a)], the parties shall commence discovery by serving the interrogatories set forth in Forms XXX, XXY, XXZ of the rules of practice; each party shall then have the right to serve _____ additional interrogatories, which shall not be duplicative of the interrogatories set forth in Forms XXX, XXY, XXZ without leave of the judicial authority; and may seek leave of the judicial authority to serve additional interrogatories as necessary in the particular case. These forms are set forth in the Appendix of Forms in this volume. Unless the judicial authority orders otherwise, the frequency of use of interrogatories in all actions except those for which interrogatories have been set forth in Forms 201, 202, 203, 208, 210, 212, 213 and/or 214 of the rules of practice is not limited.

(c) The standard interrogatories are intended to address discovery needs in most cases in which their use is mandated, but they do not preclude any party from moving for permission to serve such additional discovery as may be necessary in any particular case.

(d) In lieu of serving the interrogatories set forth in Forms 201, 202, 203, 208, 210, 212, 213, 214, XXX, XXY and/or XXZ of the rules of practice on a party who is represented by counsel, the moving party may serve on such party a notice of interrogatories, which shall not include the actual interrogatories to be answered, but shall instead set forth the number of the Practice Book form containing such interrogatories and the name of the party to whom the interrogatories are directed. The party to whom such notice is directed shall in his or her response set forth each interrogatory immediately followed by that party's answer thereto.

(e) The party serving interrogatories or the notice of interrogatories shall not file them with the court.

(f) Unless leave of court is granted, the instructions to Forms 201 through 203 are to be used for all nonstandard interrogatories.

Sec. 13–9. Requests for Production, Inspection and Examination; In General

(a) In any civil action, in any probate appeal, or in any administrative appeal where the judicial authority finds it reasonably probable that evidence outside the record will be required, any party may serve in accordance with Sections 10–12 through 10–17 upon any other party a request to afford the party submitting the request the opportunity to inspect, copy, photograph or otherwise reproduce designated documents or to inspect and copy, test or sample any tangible things in the possession, custody or control of the party upon whom the request is served or to permit entry upon designated land or other property for the purpose of inspection, measuring, surveying, photographing, testing or sampling the property or any designated object or operation thereon. Such requests will be governed by the provisions of Sections 13–2 through 13–5. In all personal injury actions alleging liability based on the operation or ownership of a motor vehicle or alleging liability based on the ownership, maintenance or control of real property, or in actions claiming a loss of consortium or uninsured/underinsured motorist coverage benefits, the requests for production shall be limited to those set forth in Forms 204, 205, 206, 209, 211, 215 and/or 216 of the rules of practice, unless, upon motion, the judicial authority determines that such requests for production are inappropriate or inadequate in the particular action. These forms are set forth in the Appendix of Forms in this volume.

(b) The standard requests for production are intended to address discovery needs in most cases in which their use is mandated, but they do not preclude any party from moving for permission to serve such additional discovery as may be necessary in any particular case.

(c) Requests for production may be served upon any party without leave of court at any time after the return day. In lieu of serving the requests for production set forth in Forms 204, 205, 206, 209, 211, 215 and/or 216 of the rules of practice on a party who is represented by counsel, the moving party may serve on such party a notice of requests for production, which shall not

include the actual requests, but shall instead set forth the number of the Practice Book form containing such requests and the name of the party to whom the requests are directed.

(d) The request shall clearly designate the items to be inspected either individually or by category. The request or, if applicable, the notice of requests for production shall specify a reasonable time, place and manner of making the inspection. Unless the judicial authority orders otherwise, the frequency of use of requests for production in all actions except those for which requests for production have been set forth in Forms 204, 205, 206, 209, 211, 215 and/or 216 of the rules of practice is not limited.

(e) If information has been electronically stored, and if a request for production does not specify a form for producing a type of electronically stored information, the responding party shall produce the information in a form in which it is ordinarily maintained or in a form that is reasonably usable. A party need not produce the same electronically stored information in more than one form.

(f) The party serving such request or notice of requests for production shall not file it with the court.

(g) Unless leave of court is granted, the instructions to Forms 204 through 206 of the rules of practice are to be used for all nonstandard requests for production.

(h) A party seeking the production of a written authorization in compliance with the Health Insurance Portability and Accountability Act to inspect and make copies of protected health information, or a written authorization in compliance with the Public Health Service Act to inspect and make copies of alcohol and drug records that are protected by that act, shall file a motion pursuant to Section 13–11A. A motion need not be filed to obtain such authorization in actions to which Forms 204, 205 and 216 of the rules of practice apply.

FORM XXX
PLAINTIFF'S INTERROGATORIES
DIRECTED TO DEFENDANT [DEFENDANT HEALTH CARE PROVIDER'S NAME]

The undersigned, on behalf of the plaintiff(s), hereby propounds the following Interrogatories to be answered by the defendant, [DEFENDANT HEALTH CARE PROVIDER'S NAME], under oath, within sixty (60) days of the filing hereof in compliance with Practice Book Section 13-2. The defendant is reminded that, pursuant to Practice Book Section 13-15, (s)he has a continuing duty to disclose and thus is required to supplement his/her responses upon the discovery of additional or new material or information.

In answering these interrogatories, the defendant(s) is (are) required to provide all information within their knowledge, possession or power. If an interrogatory has subparts, answer each subpart separately and in full and do not limit the answer to the interrogatory as a whole. If any interrogatories cannot be answered in full, answer to the extent possible.

Definitions: The terms used herein shall have the meanings ascribed to them in Practice Book Section 13-1 unless the context of an interrogatory clearly indicates otherwise.
